Dear Hiring Manager,

I am writing to apply for the **Software Engineer** position advertised on isbul.net. With five years of experience building web applications, I am confident that my skills match the requirements of your team.

In my current role at an e-commerce company, I have:

- Developed customer-facing features used by more than 200,000 monthly visitors.
- Reduced page load time by 40% by improving front-end performance.
- Worked closely with design and product teams in two-week sprints.

I enjoy solving practical problems, writing clean and tested code, and learning from experienced colleagues. I would welcome the opportunity to bring this approach to your company.

My resume is attached. Thank you for your time and consideration; I look forward to hearing from you.

Sincerely,
Mert Yalçın
